Installation is available exclusively for trees and plants purchased from Feature Trees Ballarat.

Installation refers to in-ground planting only. Decorative container potting is quoted separately (see Page 2).

Installation Includes

- Correct Planting Depth
- Soil Conditioning Using Soil Improver
- Clay Treatment When Required
- Fertilising With Suitable Slow Release & Liquid Fertiliser
- Professional Staking
- Onsite Establishment & Watering Advice

Installation Conditions

Excess excavated soil remains on site unless otherwise arranged.

Ongoing watering and maintenance after installation is the responsibility of the property owner.

Plant performance may be influenced by environmental conditions, site factors and ongoing maintenance practices beyond our control.

All trees and plants are installed in accordance with best horticultural practice for long term establishment.

Why Installation Matters

Many planting failures are caused by:

- Planting too deep
- Compacted clay soil
- Poor drainage
- Incorrect staking
- Inconsistent watering during establishment

Our installation ensures your trees and plants are planted correctly to give it the best possible start in Ballarat conditions.

Decorative Container Potting

We can professionally pot your trees and plants into customer supplied decorative containers at the time of delivery.

This service is quoted individually due to variations in pot size and soil volume required.

Customer supplied pots must have adequate drainage holes prior to installation. We do not modify or drill containers. Plant performance in decorative containers may be influenced by drainage, watering practices and environmental conditions beyond our control.

Payment & Quoting

To arrange installation or request a decorative potting quote, please leave a note at checkout or contact us prior to delivery.

Pricing is as per the above schedule.

Installation and decorative potting services are payable upon completion on the day of service unless prior payment arrangements have been made.
